

**It's still the best time of year: FREE ACCESSORIES WITH EVERY SPA!\*\***

Thanks to the great success of this offer, we will continue to supply a free set of accessories with every spa ordered until the end of June. We see sales picking up thanks to good weather conditions and, according to the feedback from the MAAX Spas dealers, the free accessories package is helping customers to be more decisive during their purchase.

\*\*Promotion not valid on already existing orders.

**Foot-well Dome Light Design Upgrade**

The MAAX Collection line of hot tubs will feature a new light design.

The new light design integrates the styling of the foot-well and compliments the modern design of this brand. This change is a rolling change and will not affect the production schedule.

**New jacket on Control Pack**

On a rolling base the spa control packs will be changed to an upgraded look. This is to match the other components which are mainly black and to give a new look that is more in line with modern design. On the inside there are no technical changes.
